Course Description

The course focus on the development and improvement of keyboard skills such as repertoire, technique, music reading, improvisation, harmonization, score reading, transposition, and the use of technology. The course is intended to reinforce students' understanding of both written and aural skills theoretical concepts.

The class is divided in two components: Skill Checks and Tests, they are both part of the "Proficiency Exam." Each Skill Check is designed to check your proficiency in a specific area such as transposition, score reading, accompaniment, harmonization, solo repertoire, etc. Each test is designed to cover more than one area and to expand the skill checks' scope.

All these areas are covers with a wide variety of musical selections of all styles including solo and ensemble pieces. *This course is not available for Graduate level credit.*
